### 4. Received a Status Report and Heard Comments on the Life Actuarial (A) Task Force's AAT Project

Rehagen stated that a project has been ongoing for the ~~past~~ at the Life Actuarial (A) Task Force that would require asset adequacy testing (AAT) to be performed ~~using~~ a cash flow testing methodology for life and annuity reinsurance transactions. He stated ~~that~~ this project was proposed by several state insurance regulators and recommends changes to the AAT methodology for the ~~asset~~ support reinsurance transactions. He stated that this project had been discussed publicly during several Life Actuarial (A) Task Force meetings and noted that there were substantial discussions during those meetings.

Andersen stated that the Life Actuarial (A) Task Force ~~has~~ met several times over the past months to discuss the AAT project. He stated that the regulatory focus of the pr
