As a result of the adoption of proposal 2017-07-CA, by the Capital Adequacy (E) Task Force at the Spring National Meeting, the instructions and line for non-government money market mutual funds ( MMMF) Line (22) on page FR005 was deleted. The purpose of the deletion was to avoid the double counting of MMMFs in

Updating the tax factors on FR030, adjustments to the pre-tax factors applied to them receiving bond treatment, to reflect a higher rate. 0.97 is an approximation of the corporate bond model used to inform the revision to bond factors under conventional investment Risk-Based Capital (E) pre-tax factors for long-term care and health claim reserves, the interest rate risk were also adjusted to retain the effect consistent with the approach taken if they were originally included.

Capital (E) Working Group will be reviewing the implications of tax reform in the

## Federal Home Loan Bank Collateral

As a result of the adoption of proposal 2017-03-L by the Capital Adequacy (E) Task Force at its Spring National Meeting, the treatment of Federal Home Loan Bank (FHLB) advances was modified. The previous C-0 charge for collateral held for FHLB advances of 1.3% on FR017 was changed to 0% for the collateral equal to the amount advanced when that liability is part of C-3 modeling, and a factor based on the risk of the FHLB for any collateral in excess. The factor will be based on an NAIC 2 bond factor if the FHLB funded advance liabilities associated with funding agreement activities
