- a. The investment shall be nonadmitted if the audit opinion contains a disclaimer of opinion for the most recent statement of financial position presented in the financial statements.
- b. The investment shall be nonadmitted if the audit opinion contains a qualified opinion due to a scope limitation that impacts the most recent statement of financial position presented in the financial statements and the impact of the scope limitation cannot be quantified. However, if the impact of the scope limitation is quantified in the audited financial statements or the audit opinion, the investment shall be admitted and the reporting entity's valuation of the investment shall be determined based on the GAAP equity of the investee, adjusted to exclude the impact of the quantified scope limitation.
- The investment shall be nonadmitted if the audit opinion contains a qualified c. opinion due to a departure from GAAP that impacts the most recent statement of financial position presented in the financial statements and the impact of such departure is not quantified in either the auditor's report or the footnotes to the financial statements (see quantification exception related to the valuation of a U.S. insurance entity on the basis of U.S. statutory accounting principles discussed below). However, if the impact of the departure from GAAP is quantified in the audited financial statements or the audit opinion, the investment shall be admitted and the reporting entity's valuation of the investment shall be determined based on the GAAP equity of the investee, adjusted to exclude the impact of the quantified departure from GAAP. There is no need to quantify the impact of a departure from GAAP in either the auditor's report or the footnotes to the financial statements if a qualified audit opinion is issued due to a departure from GAAP and the departure is related to the valuation of an U.S. insurance entity on the basis of U.S. statutory accounting principles. In such cases, the investment shall be admitted without quantifying the departure.
- d. The investment shall be nonadmitted if the audit opinion contains an adverse opinion due to a departure from GAAP that impacts the most recent statement of financial position presented in the financial statements and the impact of such departure is not quantified in either the auditor's report or the footnotes to the financial statements (see quantification exception related to the valuation of a U.S. insurance entity on the basis of U.S. statutory accounting principles discussed below). However, if the impact of the departure from GAAP is quantified in the audited financial statements or the audit opinion, the investment shall be admitted and the reporting entity's valuation of the investment shall be determined based on the GAAP equity of the investee, adjusted to exclude the impact of the quantified departure from GAAP. There is no need to quantify the impact of a departure from GAAP in either the auditor's report or the footnotes to the financial statements if an adverse audit opinion is issued due to a departure from GAAP and the departure is related to the valuation of an U.S. insurance entity on the basis of U.S. statutory accounting principles. In such cases, the investment shall be admitted without quantifying the departure.
- e. The investment shall be nonadmitted if the audit opinion contains explanatory language indicating that there is substantial doubt about the investee's ability to continue as a going concern.
- 5. At its December 2, 2007 meeting, the working group reached a consensus to amend INT 03-03 to state that a departure from GAAP due to the valuation of a U.S. insurance entity on the
