Re: ACLI Comments on the AUWG Draft Regulatory Guidance and Considerations

Dear Commissioners Houdek and Arnold,

Thank you for the opportunity to comment on the draft Regulatory Guidance and Considerations created by the Ad Hoc Drafting Subgroup. The American Council of Life Insurers (ACLI) remains very supportive of the important work conducted by the Accelerated Underwriting (A) Working Group. As regulators, industry and other stakeholders continue to discuss and work through the many issues associated with the use of Big Data, Artificial Intelligence (AI) and Machine Learning (ML) in accelerated underwriting,
