***Filing codes for Type of Insurance that have all zeros after the decimal point include all listed sub-codes (if any), when this Type of Insurance code is listed under Type of Insurance in the filing transmittal document. An example, to correctly represent on the Uniform Property & Casualty Transmittal Document, is as follows:**

Placing Code 11.0000 (Medical Malpractice) under Type of Insurance on the transmittal document would denote the filing of all its sub-codes listed. If all of the sub-codes represent occurrence coverage, then it is necessary to list the code 11.1000 (Occurrence) as a second code under Type of Insurance. If all of the sub-codes represent claims made coverage, then it is necessary to list the code 11.2000 (Claims Made) as a second code under Type of Insurance. If the sub-codes under Code 11.0000 vary between occurrence and claims made coverage, then it will be necessary to list each sub-code as either occurrence or claims made by denoting a 1 or 2 immediately following the sub-codes decimal point as explained in the following example.

****Filing codes for Sub-Type of Insurance with sub-codes that denote a 1 or 2 immediately following the decimal point are to be used to clarify a coverage sub-code so that only one sub-code number is needed to file for a particular coverage, rather than two. An example, to correctly represent on the Uniform Property & Casualty Transmittal Document, is as follows:**

The filing for _____ coverage (located in the Type of Insurance for Medical Malpractice), as correctly entered under Sub-Type of Insurance of the transmittal document.

The claims made sub-code in the example is 11.2000. The acupuncture sub-code without designating whether it is occurrence or claims made is 11.0001.

Since the first digit following the decimal for 11.2000 is the number 2, that number may be dropped down in lieu of the 0 for the first decimal in the acupuncture sub-code. This would therefore change the acupuncture sub-code from 11.001 to 11.2001 which would effectively designate its coverage as that of claims made acupuncture.

Credit insurance is generally issued in connection with the issuance of credit to an individual by a bank, retailer, finance company or other similar organization and protects the organization for the unpaid balance of the loan and frequently for durations of less than 120 months. (Taken from SSAP No. 59, Credit Life and Accident and Health Contracts.)

Personal GAP (Guaranteed Asset Protection) Insurance

Effective January 1, 2024

Force-placed (also known as lender-placed and creditor-placed insurance) is insurance that is placed by the lender subsequent to the date of the credit transaction, providing coverage against loss, expense or damage to collateralized property as a result of fire, theft, collision or other risks of loss that would either impair a creditor's interest or adversely affect the value of collateral covered by limited dual-interest insurance. It is purchased by the lender according to the terms of the credit agreement as a result of the borrower's failure to provide required insurance, with the cost of the coverage being charged to the borrower. It may be either single-interest insurance or limited dual-interest insurance.
